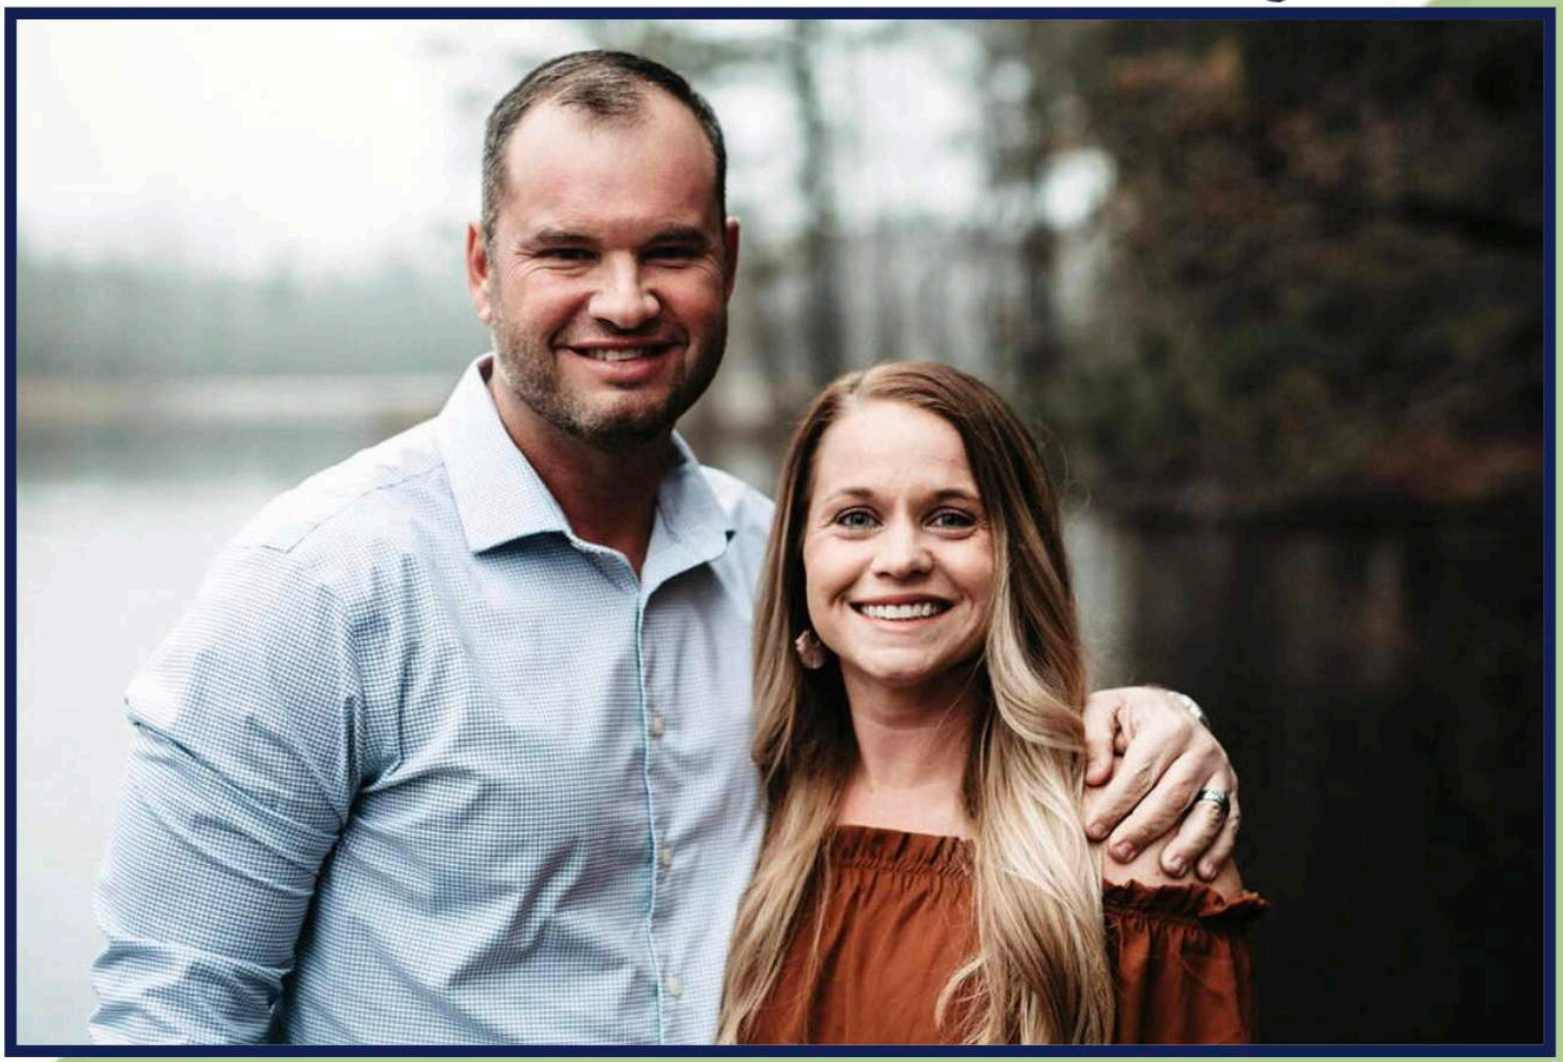
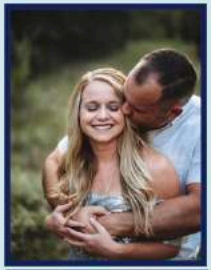
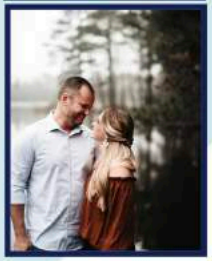
Benji & Shelly

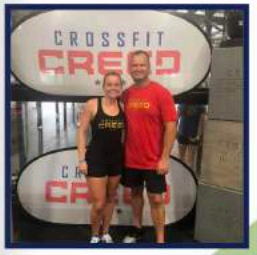


hello



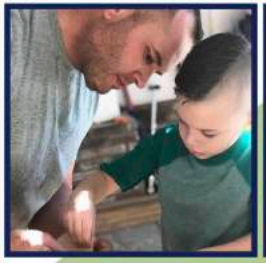


About Us!



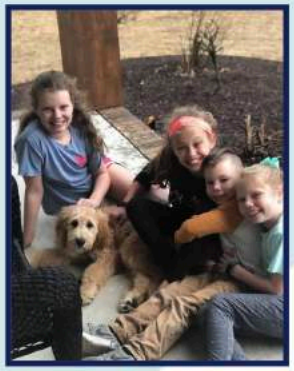
We are Benji & Shelly. We dated for 2 years before we got married with our closest family & friends by our side. We are best friends. We enjoy doing things together from cooking, working out, trying new restaurants, hanging with our people & going on adventures. We feel that we are so blessed & have a great life together with a love that is strong. We hope to to show you a little more about our life, family & values through these pages! Thanks for getting to know us.

Our Family!



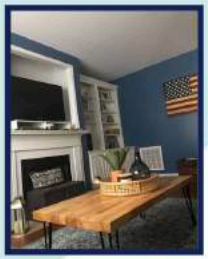
We are a family of six & we are looking to grow our family through adoption. We currently have 4 kids that are amazing, have the biggest hearts and have so much love to give. We enjoy being together and there is never a dull moment with our family. Life with them is full of joy!

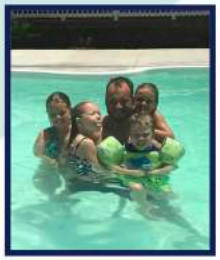
Our Pups!

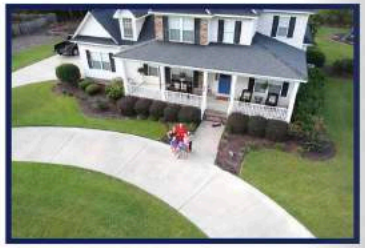


We have 2 dogs that we love dearly, a 10 year old yellow lab & a 5 month old golden doodle. The kids are great with them. We enjoy playing with the pups at the house, teaching them tricks & going on long walks.

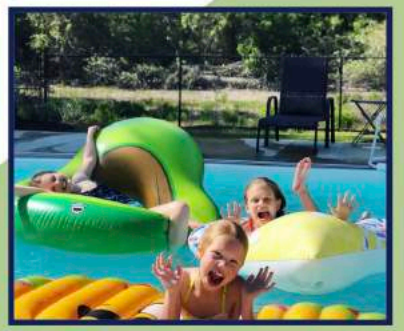
We also have the best extended family! They are supportive and are always there to spoil us & the kids. Both of our parents live less than 10 minutes away. We see each other often and love making memories together!







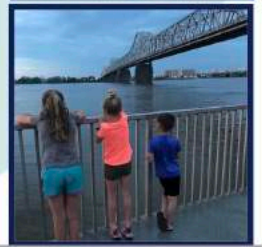
Our Home!



We have created a house that we enjoy being at. Whether we are cooking or grilling, having a game night, front porch sitting, having friends over, swimming or playing in the yard, we our glad that our house really feels like home.

Our people! We feel that we have amazing people surrounding us who we could not do life without. Our close friends, church family & gym family are great encouragers and always make life fun.

Giving back is important to us. We are apart of a great church who loves our community well. We also love involving our kids in serving so that we can teach them to have a heart for others.

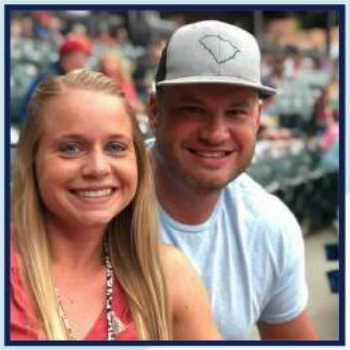


Traveling

We love to travel & go on adventures together. We enjoy trying new foods, being adventurous and being outdoors, seeing new sites and exploring even our own town.

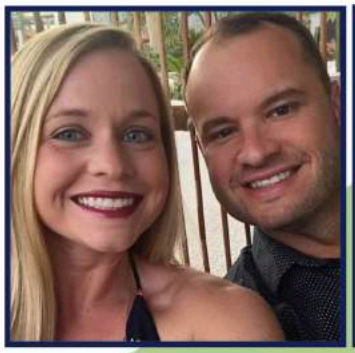
Celebrating together is something we do as a family! Whether it's a holiday, a birthday, a milestone or good grades we like to celebrate it. One of our favorite family traditions is going to pick out a tree, decorate it together with music & hot chocolate at Christmas time!

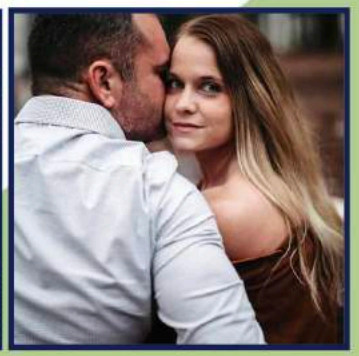
Shelly on Benji



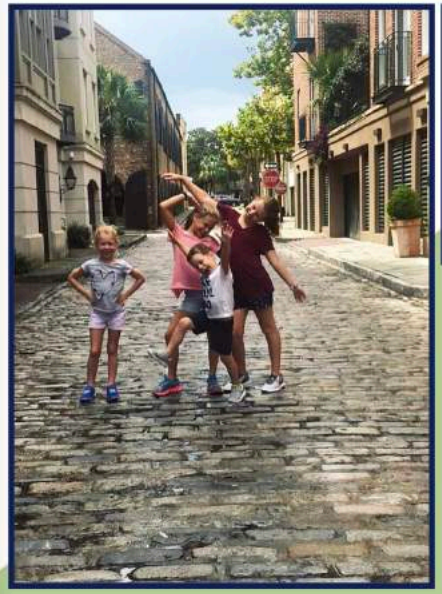
Benji is the hardest working man I know! He is the king of dad jokes and loves people so well. He likes working with numbers & finances, grilling, working out and flying his drone. Words I would use to describe him would be funny, generous, loyal, athletic and kind. He always makes time for our family. He is a great provider but also cares about our hearts & always bring all the fun! He is already the best dad & I know he will be the most amazing dad to our next kid!

Benji on Shelly





Shelly is the most loving and wisest woman. She protects our children and teaches them wholesome values. Words cannot describe how big her heart is for people. She is kind, encouraging, dependable, and super fit! Shelly loves doing CrossFit, front porch sitting, cooking new foods, hosting friends, decorating, and hanging by the pool. She also loves making our house a home. She is an awesome mom to our four kids and I cannot wait to see her mother our next!



Fun facts on the kids:
> Our oldest loves to reading, art & dark chocolate!
> Our second oldest loves to run & flip, dance to music & gummy bears!
> Our third oldest loves a good joke, playing outside & ice cream!
> Our current youngest loves soccer, bike riding & pizza!

Love

Thank you for taking the time to read about us. We think that the decision you are making is so brave and we are grateful that you would consider us as parents. We see growing our family and the new child who enters it as a true gift. We can't wait to show them so much love and support!
